

GODFREY'S FITTING SERVICE

ENVIRONMENTAL POLICY

Godfrey's Fitting Service has a commitment to protect and preserve the environment and will ensure that the potential adverse effects on the environment are either avoided or minimized by investigation or planning prior to the commencement of activities.

Godfrey's Fitting Service objectives in the fulfillment of this policy are to:

- Ensure all applicable industry and statutory requirements are met.
- Ensure all employees and contractors are aware of their responsibilities in relation to environmental matters.
- Make all efforts in the collection of waste products known to be deleterious to the environment, which may be products of the company operations and to dispose of such waste by recycling or other industrial accepted practices.
- Carry out business in an energy efficient manner.
